Partitioning Systems

Opal Partitioning Sliding Door

A modern and versatile solution for dividing interior spaces while maintaining an open and airy feel. The slimline sleek aesthetic complements contemporary interiors making them ideal for offices and commercial spaces.

45mm Display Suite

The 45mm Display Suite is a narrowline, adaptable general purpose suite ideal for internal glazing and one of the simplest systems available for continuous glass walls, with the glass panels silicone butt joined or mullions may be utilised for extra strength. The system can be used with a range of standard door frames from 35mm to 45mm and readily complements plasterboard walls. May be used in conjunction with Alspec's range of aluminium skirting.

Opal 64/76/92mm Stud Partitioning Suite

The Opal suite has been produced in response to market demand for a more contemporary framing system which meets today's design requirements. By being skilfully engineered this system offers more strength where required whilst ensuring installers are still competitive at the contract stage.

The 64mm, 76mm and 92mm framing cleverly utilise the current McArthur 101.6mm centre pocket framing bead to eliminate the need for additional adaptors and wedges for installation of doors.

Skirting Profiles

Alspec provide a comprehensive range of skirtings suitable for all its Partition Suites and commercial/industrial building fit outs including:

- 1.6mm Flat bar stick on skirting in 25, 80, 100 & 150mm.
- 3mm Flat bar stick on skirting in 25, 40, 50, 80, 100 & 150mm.
- Concealed screw fix skirtings 5mm thick in 50, 100 & 150mm. Suitable PVC corner stakes and cover tape in black and grey are available.

All sections are readily available from Alspec in mill, black or clear anodised finish off the shelf. For all other colours (including warranty paint) please contact your Alspec Area Manager for the relevant lead times.
