

The Triser Hardware range finds its inspiration in the striking square, sharp edges of the iconic 12 Apostles along the Great Ocean Road. Just as these natural marvels stand proudly against the elements, our hardware range embodies their strength and beauty, creating a lasting impression wherever they are installed.

Triser Offset Pull Handle

The low-profile **Triser Offset Pull Handle** has been designed to integrate seamlessly with your choice of screening products. Its compact offset form provides critical clearance between the primary sliding door and sliding screen, ensuring smooth operation without interference.

Engineered for comfort and ease of use, the handle delivers reliable performance while maintaining a clean, minimal aesthetic.

KEY FEATURES

- **Low-Profile Square Pull Handle** - 35mm height for a sleek, unobtrusive design.
- **270mm Centre-to-Centre Fixing** - Standardised for easy installation.
- **Designed for Compatibility** - Specifically engineered to prevent interference with sliding flydoors or security doors on Carinya and Altitude sliding systems.
- **Finish Options** - Available in Stainless Steel and Black Powder Coat.
- **Coordinated Look** - Matching colour escutcheon plates available.
