ALUMINIUM SYSTEMS
SPECIALISTS

ABOUT US

Established in 1974, Alspec is the market leader in the design and distribution of innovative aluminium systems to the architectural, industrial and home improvement markets.

Our range of quality products, that are extensively tested, together with our professional service ensures Alspec is uniquely positioned to support the growth of your business.

Alspec stocks a complete range of commercial hardware and accessories to complement all aluminum systems.

Alspec continues to partner with major Australian and global hardware manufacturers. If you need an accessory for an aluminium system from a major manufacturer, it is more than likely it will be in stock at your local Alspec branch.

With a network of 500 staff and thirteen locations nationally, Alspec is a 100% Australian owned.

INNOVATIVE SYSTEMS

Alspec continue to invest heavily in Research and Development to ensure the latest technologies and design principles are applied into their every increasing range of advanced systems. This provides the customer with fully tested systems that meet and/or exceed current and relevant Australian standards but also deliver on trend and aesthetics.

PROFESSIONAL AND PERSONAL SERVICE

Alspec's investment in Research and Development is matched by the company's history of developing staff who are committed to doing everything necessary to satisfy our customer's requirements. From fabricators to specifiers the benefits of working with Alspec ensures easy access to a team of experienced and technically competent people who are aluminium systems specialists with real expertise in all facets of the industry.

At Alspec, we value the importance of developing relationships and maintaining the personal touch. Our staff are accessible, always interested in your needs and take pride in a well earned reputation for dependability.

Alspec Euro Profile Cylinders

Alspec has put together a comprehensive and competitive range of cylinders that will satisfy the requirement of any locking specification. By using 5 pin C4 cylinders, this will allow you to simplify your keying requirements and reduce your stock holdings whilst offering keyed alike solutions. These cylinders can also be matched up with locks from Lockwood, Interlock, Austral & Whitco.

Suitable for:

- Altitude
- Air-flo
- Carinya

62mm Euro Cylinder

Suitable for:

- ProGlide
- Swan
- Swan Evo
- Torrens
- Hawkesbury

Electronic Strikes

1370773

1370731 | 1370732
1304579 | 1304578

1370777

Electric Strikes are a common component within electromechanical door systems. They are characterised by speed, durability and longevity.

Features

- Fail safe/fail secure changeable on site
- Monitored and Non Monitored versions available
- Stainless steel strikers for extra strength and durability

Alspec Code	Item Description
1370773	ES110-1 ELECTRIC STRIKE 12/24Vdc FAIL SAFE/SECURE NON MONITORED

1370777	GUR-ST245SSL FRAMELESS GLASS ELECTRIC STRIKE 12/24Vdc FAILSAFE/SECURE

1373082

1373081

Features

- Stainless steel locking pins
- Multi Voltage 12V DC & 24V DC

Alspec Code	Item Description
1373082	LC8810 POWER TRANSFER LEAD 277mm
1373081	LC8811 POWER TRANSFER LEAD 497mm

Mag Locks

1389900 | 1389905

1389901

1389908 | 1389909

Features

- Fail-safe: unlocks when power is removed
- Easy installation: suitable for both new and retrofit usage
- High holding force: refer to the technical data
- Self-alignment: armature plates
- Silent operation: no humming or buzzing
- Dual voltage: site selectable 12 or 24 V DC
- Instantaneous release
- Series Electromagnets eliminate residual magnetism

Alspec Code	Item Description
1389900	EMZ4 MAG LOCK 12/24Vdc SINGLE NON MONITORED 250kg

ADI Lockable Bolts

ADI Security Products is situated on the south coast of NSW in the small coastal town of Gerringong, providing a range of products for locksmith, gate fabricators, roller door distributors and architectural hardware distributors.

We manufacture locking devices for industrial, retail and public works establishments, together with devices to restrict the possibility of attack locking devices. For gate fabricators we provide products enabling them to mount a more sophisticated locking device to gates. We provide alternate locking devices for roller door distributors to ensure their product is more secure.

Door Seals

Kilargo architectural seals are expertly manufactured in Brisbane, QLD to the highest industry standards. Using precise equipment and a highly skilled assembly team, we produce top quality architectural seals to suit a plethora of applications.

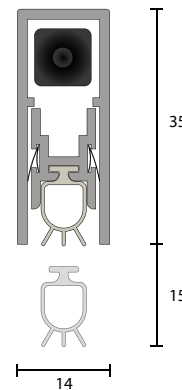

Our architectural seals are perfect for use in commercial, educational, healthcare and public buildings to contain fire, smoke, sound, weather and even energy. Using great precision and following strict building code regulations we produce the highest quality door seals available on the market. Our seals are suitable for containing and slowing the spread of fire and smoke, ensuring energy loss is minimal, sound proofing and keeping the weather out amongst other uses.

Yarra Sliding Door Locks

Features

- Locks come with cylinder plugs, to allow configuration between no cylinder, single & double cylinder
- Twin counteracting beaks engage an all-metal catch plate, providing resistance to jemmying and restraining the door against being lifted from its rails.
- Self-adjusting catch plate automatically compensates for building movement and door carriage wear, to ensure correct latching after continued use.
- A range of outer pull designs are available for various applications.
- Anti-slam plunger prevents the door being shut with beaks extended, avoiding damage to beaks and catch plate.
- Fits Industry-standard three-hole door cutouts (three 9mm diameter holes).
- Fits wide range of door stile thicknesses from 21.3mm to 46.4mm.

HB640 Series

Halliday + Baillie is a New Zealand company that has been operating for 22 years, and has exported hardware worldwide for a decade.

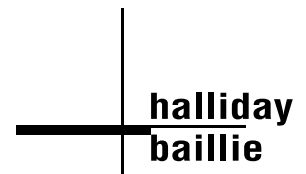

Our design encompasses quality, flair, functionality, and longevity. Products are proudly produced in New Zealand where lower volumes enable careful monitoring with a correspondingly high production quality. Handles may be turned a thousand times a day, so materials and finish are amongst the highest priorities. Longevity has become the undisputed hallmark of our success.

Commercial Door Rollers

1310231

1310232

1310234

1310236

1310237

Features

- Industry leading bearing options
- Tandem wheel design
- Plastic tyres on wheels
- Replaceable/interchangeable inner carriage
- Adjustable under load reduced noise and smoother operation
- Equal distribution of weight across bearings meaning longer life
- Plastic rollers resist tracks wear
- Easily serviceable once installed

Alspec Code	Item Description
1310231	N9217DSNA DUAL WHEEL SS BEARING ROLLER 100kg
1310232	N9217DSGA DUAL WHEEL SS BEARING ROLLER SS TYRE 100kg
1310234	N9217SNA SINGLE WHEEL SS BEARING ROLLER 50kg
1310236	M-N9217 CARRIAGE CORNER STAKE
1310237	N9217FPA FIXED PANEL ADJUSTER

Commercial Door Rollers

1310241

1310242

1310243

1310240

1310249

Features

- Unique self-leveling mechanism; allows superior load rating cycle life
- Outer casing is constructed from a rigid polymer and can be modified to accommodate a large range of extrusion profiles
- Tyres are moulded from our custom engineered polymer for optimal strength and durability
- Fully adjustable carriage offers up to 14mm height adjustment
- Dust Sealed Precision Ground Bearings

Alspec Code	Item Description
1310241	8182-201 SINGLE WHEEL ROLLER 40kg
1310242	8177-202 DUAL WHEEL ROLLER 100kg
1310243	8207-202 THREE WHEEL ROLLER 150kg

Lockable CYL4 Chainwinders (Stainless Steel Chain)

Features

- Suits aluminium or timber awning windows with butt or hook hinges, or non friction stays
- Smooth operation
- Through flyscreen operation
- Push button to lock, key to unlock
- Less than 1 mm between locking points
- Maximum opening 300 mm, 19 handle turns to fully open
- Can be wound closed when locked
- Retrofits existing MK7 and MK8 Whitco chainwinder models
- Foldable knob in handle reduces width preventing damage and interference with blinds
- Exceeds the requirements of Australian window lock standard AS4145.3 - 2001 Level DW2SW2K1
- The chain can be restricted to either 100mm or 150mm opening length via fitment of a restrictor clip to the chain. The fitment of the restrictor clip assists the window to comply with building code Australia requirements D2.24 Protection of operable windows

Elevation Electronic Window Winder

Lockwood's Elevation® is an Electric Window Control System designed to control your windows with a touch of a button. Elevation can be configured to reflect the unique layout of any home or commercial building but is primarily used to control windows that are hard-to-reach. Elevation is a flexible solution that will suit multiple window systems 2 and applications.

TESA PE Protection Tape

Tesa 51008PV3

Tesa 51008 is a packaging film based on a polyethylene backing (P.E.) which is very user friendly due to its ability to be torn by hand.

The high tack is achieved by a natural adhesive guaranteeing instantaneous adhesion and a high tensile load. For small widths an age stability of maximum 12 months is guaranteed.

UV resistant for up to 12 months.

Alspec Code	Item Description
1385600	TESA 51008 BLACK 66m x 24mm P.E FILM PV3 PROTECTIVE TAPE
1385601	TESA 51008 BLACK 66m x 36mm P.E FILM PV3 PROTECTIVE TAPE

1385606	TESA 51008 BLACK 66m x 288mm P.E FILM PV3 PROTECTIVE TAPE

Tesa 51485

Tesa 51485 is a PVC protective tape designed with a low tack adhesive that leaves no residue upon removal. It is easy to unwind with low curl characteristics making it the perfect choice for the protection of aluminium windows and door frames.

UV resistant for up to 6 months.

Alspec Code	Item Description
1385550	TESA 51485 BLACK 66m x 24mm PVC PROTECTIVE TAPE
1385608	TESA 51485 BLACK 66m x 36mm PVC PROTECTIVE TAPE

TESA PVC Protection Film

Tesa 4848 - PE Protection Film

Tesa 4848 PE Protection Film features environmentally friendly polyethylene backing and a light, age-resistant acrylic adhesive.

- Tesa 4848 can be used indoors or outdoors for short term and large area protection.
- UV and age resistant acrylic adhesive.
- Easy to remove and residue free after up to 4 weeks.
- Thickness: 0.048mm
- Temperature Resistance: -10 to +60°C
- Effortless application and removal process

Alspec Code	Item Description
-------------	------------------

1385564	TESA 4848 TR 1240mm x 100m PE PROTECTION FILM
---------	---

50551 - Glass Protection Film

Tesa 50551 Glass Protection film is the perfect solution for long term protection of sensitive surfaces during transportation.

Due to good UV resistance, Tesa 50551 can remain on the finished product until delivery to the end customer.

- Tesa 50551 is easy to apply, ensuring simple, low cost application and removal processes.
- Clear frosted finish for maximum visible light transmittance into the building while maintaining privacy.
- Excellent outdoor resistance for more than 6 months to most glass surfaces.
- Thickness: 0.070mm
- Temperature Resistance: -10 to +60°C

1382054	10g x 1 (25mm) SS PHILLIPS PAN SELF TAPPING SCREW x 500
1382056	10g x 1 1/4 (32mm) SS PHILLIPS PAN SELF TAPPING SCREW x 500
1382058	10g x 2 (51mm) SS PHILLIPS PAN SELF TAPPING SCREW x 500

Pan Head

Phillips #1 Driver Bits

Alspec Code	Item Description
1391414	DRIVER BIT PHILLIPS #1 x 25mm
1391415	DRIVER BIT PHILLIPS #1 x 50mm
1391416	DRIVER BIT PHILLIPS #1 x 75mm
1391418	DRIVER BIT PHILLIPS #1 x 100mm
1391419	DRIVER BIT PHILLIPS #1 x 150mm

Phillips #1 Driver Bits

Phillips #2 Driver Bits

Alspec Code	Item Description
1391412	DRIVER BIT PHILLIPS #2 x 25mm
1391417	DRIVER BIT PHILLIPS #2 x 50mm
1391411	DRIVER BIT PHILLIPS #2 x 75mm
1391410	DRIVER BIT PHILLIPS #2 x 100mm
1391420	DRIVER BIT PHILLIPS #2 x 150mm
1391423	DRIVER BIT PHILLIPS #2 x 200mm
1391424	DRIVER BIT PHILLIPS #2 x 250mm

Phillips #2 Driver Bits

Screws and Driver Bits

Phillips #3 Driver Bits

Alspec Code	Item Description
1391425	DRIVER BIT PHILLIPS #3 x 25mm
1391426	DRIVER BIT PHILLIPS #3 x 50mm
1391427	DRIVER BIT PHILLIPS #3 x 100mm

Phillips #3 Driver Bits

Square Stainless Steel Countersunk Undercut Self Tappers

Alspec Code	Item Description
1382629	8g x 1/2 (13mm) 304SS SQ #2 UNDERCUT COUNTERSUNK SELF TAPPING SCREW x 1000
