

*The Triser Hardware range finds its inspiration in the striking square, sharp edges of the iconic 12 Apostles along the Great Ocean Road. Just as these natural marvels stand proudly against the elements, our hardware range embodies their strength and beauty, creating a lasting impression wherever they are installed.*

**Designed in Australia.**

## TRISER HINGED SECURITY LOCK

INTERNAL FURNITURE

LOCK BODY

Lock body Installation:

Fitting instructions are available for download at [www.alspec.com.au](http://www.alspec.com.au) or by scanning this QR code.

### Overview:

The innovative feature of this security lock is its patented stainless-steel Hook Projection Bolt mechanism, where its projection bolt has twin hooks that latches on the strike plate when fully extended. This design not only enhances the overall strength of the locking mechanism but also provides robust resistance against forced entry.

### Features:

- The stainless-steel twin locking hooks provides enhanced resistance to forced entry.
- Interior snib for quick and convenient locking without the need for a key.
- The jemmy resistant strike plate is designed to deform under attack to enable the strike plate to remain engaged with the bolt, even as the door is jemmied away from the door jamb.
- Integrated anti-lock pin to prevent damage to the locking mechanism and strike in case of accidental door shut.
- Concealed fixing screws for the interior furniture's unobtrusive appearance.

The Hook Projection Bolt With Twin Locking Hooks

### Multipoint:

The multipoint kit for the Triser hinged lock body includes slave locks to provide three-point locking.

The slave locks have the similar stainless-steel hook projection bolt mechanism like the main lock body. The kit also includes an actuator bar for **Above (High)** and **Below (Low)** settings, where the main lock body can be placed above or below the door's centreline to avoid clashing with the main door's furniture. The actuator is connected to the slave locks with steel rods.

### Installation Features:

- Fits into industry standard cut-outs.
- Standard lock fits door frames from 19mm to 25mm thick.
- Suits both left-hand and right-hand hinged doors.

### Keying:

- Can be used with Alspec Euro Profile 5-pin Lazy Cam Cylinders for Security Door Application.
- Can be used with Alspec Euro Profile Disc Lazy Cam Cylinders for Barrier Door Application.
- Can be keyed alike.

### Finishes:

Available in Black, White Primrose, Monument powder coat finishes.

ITEM NO.	DESCRIPTION
1332230	TRISER HINGED HOOK PROJECTION BOLT SEC LOCK - BLACK
1332231	TRISER HINGED HOOK PROJECTION BOLT SEC LOCK - WHITE

### Lock Cylinders for Security Door Application

**Key Features:**

- 5 pin Lazy cam euro cylinder
- C4 keyway profile
- Supplied with 2 Keys
- Non handed cylinder
- Keyed alike
- Removable cap for easy re-pinning cylinder
- Available in Bright Chrome Plated and Black finish
